BEKO

Smart Solutions for the Smart Generation

The world is not the same anymore. Today Smart Generation has high expectations, while consuming, they also want to save. They don't want to waste natural resources, their time and family budgets. Yet, in doing this, they also don't want to compromise on quality, technology and design. They demand efficiency and effectiveness; the best of both worlds. It is a new world. It is a smart generation.

Beko is addressing all the needs of this new smart generation by offering smart technologies with stylish functional design, that save in the world and at home.

Thus, Beko offers smart solutions for the Smart Generation.

Smart Solutions

All Beko small appliances feature smart solutions, designed with only one goal in mind: To improve your everyday life. Smart Solutions are built on functional design, efficiency and technology. Let Beko do the hard work while you get more out of your life.

9 Kitchen Solutions

Kitchen Solutions

- Juice Extractors
- Kettles
- Tea Makers
- Coffee Makers
- Water Dispensers
- Blenders
- Robot Choppers
- Mixers
- Meat Miners
- Grills & Toasters
- Breadmakers
- Microwave Ovens

Kitchen Solutions

Beko Kitchen Solutions transform the time you spend cooking and preparing food into an effortless and enjoyable experience. Rig your kitchen with the essential Beko appliances you need to cook in style.

Concealed heating element

As the heater is concealed, the lime scale formation is prevented and thus the kettle heating performance is maintained. It also makes it easy to clean the appliance.

Double heating system

Once the water reaches the desired temperature, the appliance switches to the second heating system to keep the temperature at a steady level. Yet another energy saving smart solution from Beko.

Temperature control selector 40 to 85 °C

You can choose between 5 different temperature levels from 40 to 85 and your kettle will keep the water at the desired temperature for the rest of its operation.

Cook sense

Cook Sense knows when the coffee is cooked and turns off the appliance preventing boil-overs. It also signals you with an alarm.

Spinjet

Spinjet disseminates coffee steadily and cooks it to perfect viscosity.

Extra large feed chute

You don't have to chop big fruits into pieces, just put them in the chute and let Beko take care of it. You buy a juicer for convenience after all, don't you?

Double coated plate

It has a long life and more important easy to clean thanks to the non-stick double coating.

Digital timer

Wouldn't it be nice to start the day with the smell of freshly cooked bread? All you have to do is to set the timer on your appliance before you go to bed.

High lift

Beko toasters featuring high lift mechanism make it easier to pick the bread up from the toaster preventing stuck bread slices and burnt fingers.

Juice Extractors

Freshen up without wasting a lot of energy. Prepare brand new blends with the fruits to best suit your palate.

Juice Extractors

BKK 2144 Inox Juice Extractor

- Power: 800 W
- 75 mm extra large feed chute
- Service with special juice jar
- Cable connector under the base
- Easy cleaning with detachable parts
- 2 speed levels
- Separate pulp container
- Filter cleaning brush

BKK 2147 Juice Extractor

- Power: 450 W
- 75 mm extra large feed chute
- Service with special juice jar
- Cable connector under the base
- 2 speed levels
- Separate pulp container
- Filter cleaning brush

BKK 2146 Fruitmix Citrus Juicer

- Power: 35 W
- 2 different sizes of cone
- 1 lt transparent jug
- Direct service to table
- Pulp adjustment feature
- Removable parts for easy cleaning

BKK 2101 Frutix Inox Citrus Juicer

- Power: 100 W
- Elegant inox design enhance the atmosphere in today's modern kitchen
- Juice is dispensed directly into a glass
- Anti-drip feature prevents dripping
- Cable collector under the base
- Easy cleaning with detachable parts

Kettles

Choose between a wide variety of power and capacity options to best suit your needs.

BKK 2106 Digital Inox Kettle

- Power: 2400 W
- Capacity: 1,5 lt
- Digital temperature control: 5 different temperatures setting from 40 to 85° C
- Keep warm function
- Follower light: shows color illumination which changes according to the temperature of the water
- Stainless steel and plastic body
- Concealed heating element

- Lime scale filter
- Water level indicator
- Easy lid opening
- Rotatable 360°, cordless jug kettle
- Cord storage

BKK 2105 Inox Kettle

- Power: 2200 W
- Capacity: 1,7 lt
- Stainless steel body
- Illuminated on off indicator
- Concealed heating element
- Lime scale filter
- Water level indicator on both sides
- Easy lid opening
- Rotatable 360°, cordless jug kettle
- Cord storage

BKK 2103 Inox Kettle

- Power: 3000 W
- Capacity: 1,7 lt
- Stainless steel body
- Illuminated on off indicator
- Concealed heating element
- Lime scale filter
- Water level indicator
- Easy lid opening
- Rotatable 360°, cordless jug kettle
- Cord storage

Kettles

BKK 2112 Kettle

- Power: 2000 W
- Capacity: 1,7 lt
- Illuminated on off indicator
- Concealed heating element
- Lime scale filter
- Water level indicator
- Rotatable 360°, cordless jug kettle
- Cord storage

BKK 1119 Y Kettle

- Power: 2000 W
- Capacity: 1,8 lt
- Illuminated on off indicator
- Concealed heating element
- Lime scale filter
- Water level indicator on both sides
- Rotatable 360°, cordless jug kettle

BKK 2119 Y Kettle

- Power: 2000 W
- Capacity: 1,3 lt
- Illuminated on off indicator
- Concealed heating element
- Lime scale filter
- Water level indicator on both sides
- Rotatable 360°, cordless jug kettle

Tea Makers

A glass teapot and a glass teacup filled with red tea, with a green tea branch garnish. The teapot is in the background, and the teacup is in the foreground. The tea is a deep red color. The teapot has a glass lid and a glass handle. The teacup has a glass handle and is sitting on a glass saucer. A green tea branch is garnishing the teacup.

Waste no time for your tea.
Everything is faster and easier
with Beko smart tea makers.

Tea Makers

BKK 2210 C Tea Maker (Glass Teapot & Glass Kettle)

- Power: 1800 W
- Tea maker with glass water container and glass teapot
- Water container capacity: 2,5 Lt
With supplied special lid, can be also used as a water kettle
- Brews the tea in the 0,7 Lt elegant glass teapot
- The two phase heating system (for boiling water and keeping water hot) automatically saves energy while keeping the water hot

- With the ability of rotation 360° and cordless usage provides convenient
- Prolonged usage with the stainless steel infusion filter in the teapot
- Stainless steel lime scale filter in the water container
- Double-light indicator of heating position (red light for boiling water and blue light for keeping boiled water)
- Concealed heating element
- Cord storage

BKK 2110 C Tea Party Tea Maker (Glass Teapot)

- Power: 1650 W
- Water container capacity: 1,8 Lt with supplied special lid, can be also used as a water kettle
- Brews the tea in the 0,7 Lt elegant glass teapot
- The two phase heating system (for boiling water and keeping water hot) automatically saves energy while keeping the water hot
- With the ability of rotation 360° & cordless usage provides convenient

- Prolonged usage with the stainless steel infusion filter in the teapot
- Stainless steel lime scale filter in the water container
- Double-light indicator of heating position
- Water level indicator on both sides
- Concealed heating element
- Cord storage

BKK 2110 P Tea Party Tea Maker (Porcelain Teapot)

- Power: 1650 W
- Water container capacity: 1,8 Lt with supplied special lid, can be also used as a water kettle
- Brews the tea in the 0,7 Lt elegant porcelain teapot
- The two phase heating system (for boiling water and keeping water hot) automatically saves energy while keeping the water hot
- With the ability of rotation 360° & cordless usage provides convenient

- Prolonged usage with the stainless steel infusion filter in the teapot
- Stainless steel lime scale filter in the water container
- Double-light indicator of heating position
- Water level indicator on both sides
- Concealed heating element

Tea Makers

BKK 2110 IM Tea Party Tea Maker (Inox Teapot & Inox Kettle)

- Power: 1650 W
- Water container capacity: 1,8 Lt with supplied special lid, can be also used as a water kettle
- Brews the tea in the 0,7 Lt elegant inox teapot
- The two phase heating system (for boiling water and keeping water hot) automatically saves energy while keeping the water hot
- With the ability of rotation 360° & cordless usage provides convenient

- Prolonged usage with the stainless steel infusion filter in the teapot
- Stainless steel lime scale filter in the water container
- Double-light indicator of heating position
- Water level indicator on both sides
- Concealed heating element
- Cord storage

BKK 2111 IG Dem Samovar Tea Maker (Grey Porcelain Teapot)

- Power: 2000 W
- 1 Lt elegant porcelain teapot and 3 Lt inox water kettle
- Stainless steel infusion filter in the teapot
- User friendly with the faucet on the body
- Continuous ready hot water
- On/off and boil buttons

- The two phase heating system (for boiling water and keeping water hot) automatically saves energy while keeping the water hot
- Concealed heating element
- Water level indicator

BKK 2111 C Dem Samovar Tea Maker (Glass Teapot)

- Power: 1800 W
- 1,2 Lt elegant glass tea pot and 2,5 Lt water kettle
- Stainless steel infusion filter in the teapot
- User friendly with the faucet on the body
- Continuous ready hot water
- On/off and boil buttons

- The two phase heating system (for boiling water and keeping water hot automatically saves energy while keeping the water hot)
- Concealed heating element

BKK 2111 P Dem Samovar Tea Maker (Porcelain Teapot)

- Power: 1800 W
- 0,9 Lt elegant porcelain teapot and 2,5 Lt water kettle
- Stainless steel infusion filter in the teapot
- User friendly with the faucet on the body
- Continuous ready hot water
- On/off and boil buttons

- The two phase heating system (for boiling water and keeping water hot) automatically saves energy while keeping the water hot
- Concealed heating element

Coffee Makers

Turkish coffee maker will help you to easily prepare delicious coffee for yourself and your friends.

BKK 2113

Turkish Coffee Maker with Double Pot

- Prepares 1 to 4 cups of coffee simultaneously in a short time
- Convenient usage with 1 lt detachable water tank, by recognizing required water amount and automatic water pick up
- Antispill System: Spilling over is prevented eliminating the need for supervision
- Spinjet system: The ideal foam and mix of the coffee is obtained eliminating the need for stirring
- Cooksense brewing detecting system obtains the ideal brewing excellent taste
- Simultaneous preparation of two different tastes of coffee, such as with or without sugar
- Elegant design with illuminated brewing division and water tank
- Audible and illuminated warnings show the cooking status and water tank fullness
- Reminding markers for coffee taste options (no sugar, little sugar, mid sugar, much sugar)

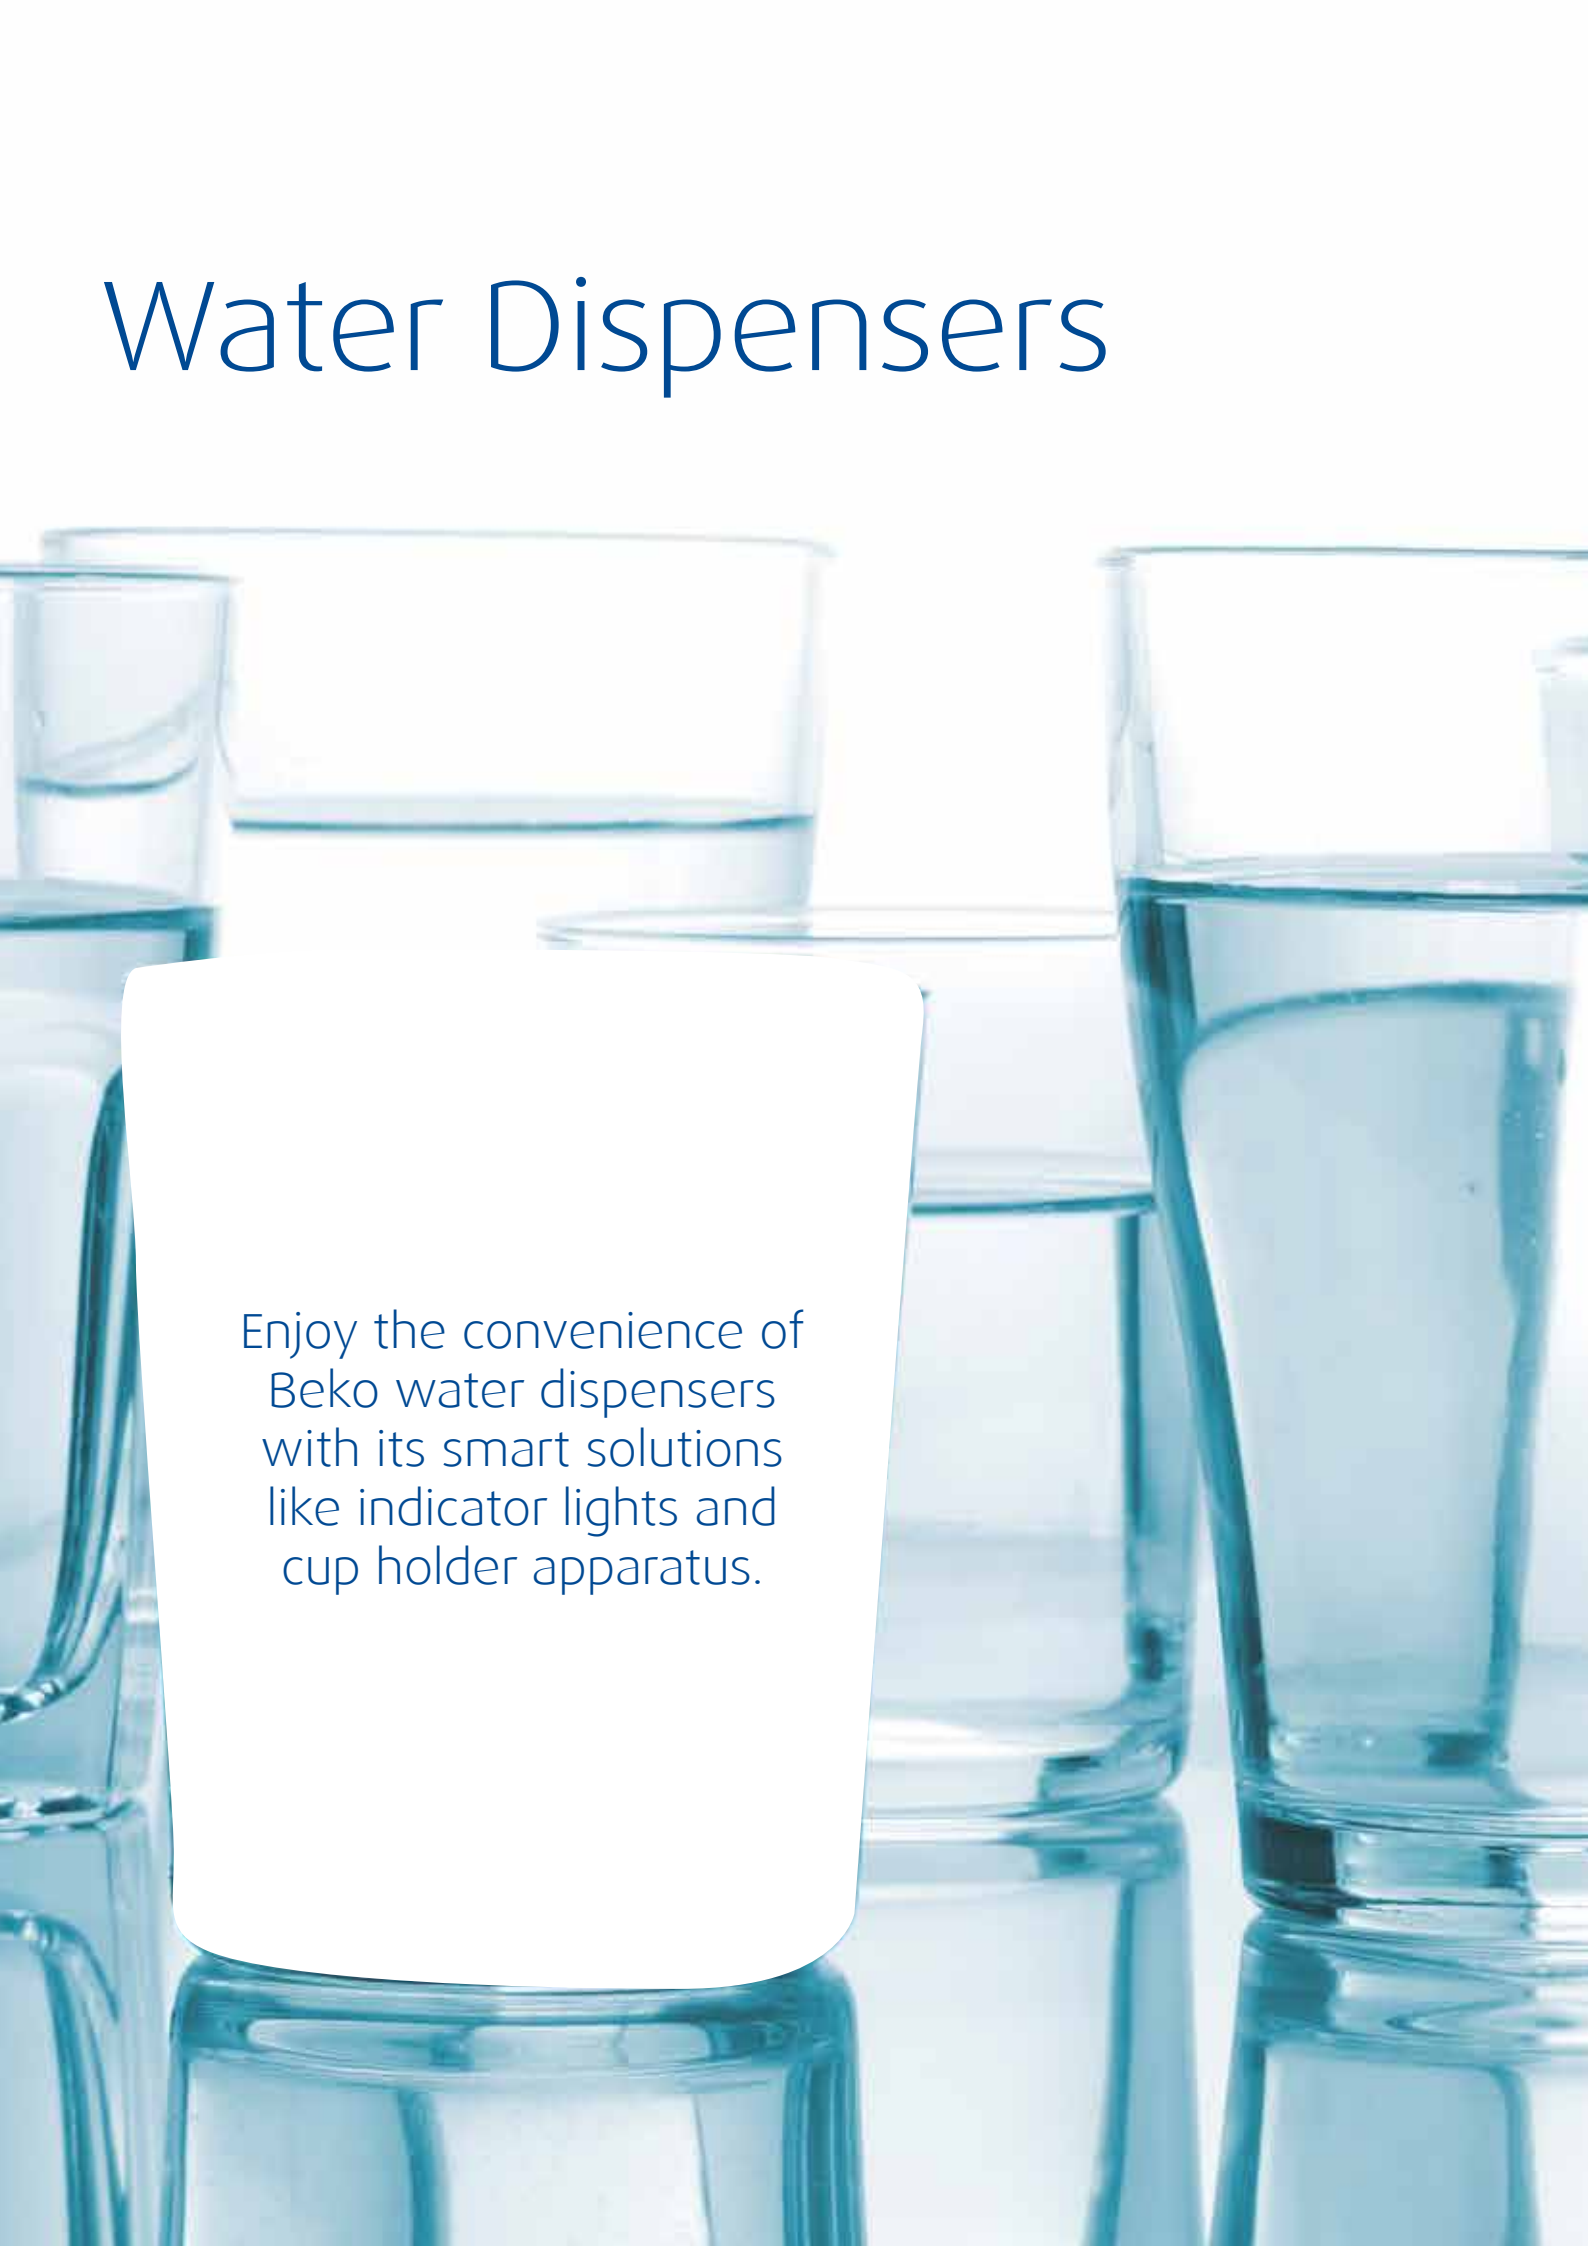

BKK 2113 M

Turkish Coffee Maker with Single Pot

- Prepares 1 to 3 cups of coffee simultaneously in a short time
- Elegant design with illuminated brewing division
- Functional use, compact design and delicious taste
- With patented technology supervision stirring and waiting is not necessary
- Cooksense brewing detecting system obtains the ideal brewing, excellent taste
- Easy to use: Only one smart start button
- Audible and illuminated warnings show the cooking status

Water Dispensers

The background of the entire page is a photograph of several clear glass tumblers filled with water. The glasses are arranged in a slightly overlapping manner, with some in the foreground and others in the background, creating a sense of depth. The lighting is bright and even, highlighting the clarity of the water and the transparency of the glass.

Enjoy the convenience of
Beko water dispensers
with its smart solutions
like indicator lights and
cup holder apparatus.

BSS 2200 TT White Color Tall Hot-Cold Water Dispenser

- 5-10 °C, 80-95 °C hot water with compressor and R134a
- 2 Indicator lights (hot & cold)
- Cup holder apparatus & bottle adapter lid
- Heating capacity: 5 lt/h
- Cooling capacity: 2 lt/h
- Heating tank capacity: 1,2 lt
- Cooling tank capacity: 3,8 lt
- Hot water temperature: 85-95 °C
- Unpacked dimension: 960x310x310 mm (HxWxD)
- Packed dimension: 1010x370x390 mm (HxWxD)

BSS 2210 tt Silver Color Tall Hot-Cold Water Dispenser

- 5-10 °C, 80-95 °C hot water
- With compressor and R134a
- 3 Indicator lights (hot & cold & power)
- Cup holder apparatus & bottle adapter lid
- Heating capacity: 5 lt/h
- Cooling capacity: 2 lt/h
- Heating tank capacity: 1,2 lt
- Cooling tank capacity: 3,8 lt
- Hot water temperature: 85 °C
- Unpacked dimension: 990x320x360 mm (HxWxD)
- Packed dimension: 1040x385x395 mm (HxWxD)

Blenders

Smart solutions of Beko blenders will be the secret ingredient of your delicious mixes.

BKK 1304 Red Style Blender

- Power: 700 W
- 15 different speed levels
- 1500 ml glass bowl
- Turbo-pulse function
- Ice crash / auto clean button
- 60 ml glass measuring bowl

BKK 2152 Red Style Blender

- Power: 600 W
- 2 speed levels
- Pulse and self clean function
- Security locking system
- Detachable bowl for direct service

BKK 2262 Y Maxi Hand Blender

- Power: 700 W
- Blends, whips
- Heat resistant stainless steel blender
- Soft touch push button
- 900 ml mixing beaker
- Chopper attachment
- Stainless steel mixer attachment

Blenders

BKK 2260 Jasmine Hotmix Hand Blender

- Power: 400 W
- Blends, whips
- Stainless steel blending part
- 2 speeds fingertip control
- 900 ml mixing beaker
- Convenient use with integrated hanging option and detachable shaft

BKK 2166 2 in 1 Hand Blender with Grater & Slicer

- Power: 700 W
- Blends, mixes, chops, slices and grates
- Heat resistant stainless steel blending part
- Stainless steel mixer attachment
- 900 ml mixing beaker
- 1500 ml chopping bowl
- Soft touch push button

BKK 2155 Hotmix Hand Blender

- Power: 400 W
- Blends, whips, chops
- 900 ml mixing beaker,
900 ml glass chopper bowl, stainless steel whisk
- Convenient use with integrated hanging option and detachable shaft
- Two speed fingertip control

Robot Choppers

Not only do they create miracles
in the kitchen, but also they are
easy to use and clean.

Robo Choppers

BKK 1156 Mini Robo Chopper

- Power: 400 W
- Chops, slices, whips and prepares cream just with a single touch
- Easy-to-clean
- 900 ml capacity
- Color options are available (white & silver)

BKK 2159 Auto-Robo Chopper

- Power: 400 W
- Automatically works (hands-free) by pushing chop and mix buttons or manual usage with pulse button
- Better chopping with the double and long knife system
- 1500 ml glass bowl
- Easy-to-clean

BKK 2158 Midi Robo Chopper

- Power: 400 W
- Chops, slices, whips and prepares cream just with a single touch
- Easy to clean
- Glass jar
- Long double blade system

BKK 2154 Robokit Food Processor

- Power: 700 W
- Chops, blends, slices, shreds and grates
- Whisking disc and dough tool included
- Squeezing juice out of both citrus fruits and hard fruits
- 10 speed settings and pulse button
- 1500 ml glass blender & 1500 ml chopping bowl
- Color options are available (white & silver)

BKK 2156 Max Robo Food Processor

- Power: 450 W
- With 3 different stainless steel shredding/slicing discs, chopping blade and whisk accessories, ideal for chopping, slicing, whipping and blending
- Washable in the dishwasher
- 7 speed settings and pulse button
- Safety lock system
- Handy with the auxiliary spatula and non slip rubber mat
- 2200 ml glass chopping bowl can be used in microwave oven
- Color options are available (white & silver)

Mixers

Thanks to their high ergonomics, Beko mixers readily mix anything and can be cleaned with ease.

BKK 1257 Fullmix Mixer

- Power: 275 W
- 4 speed
- Stainless steel blender attachment
- Turbo
- Beaters and kneading hooks
- Press and remove feature for beaters and kneading hooks

BKK 1150 Mixer

- Power: 275 W
- 4 speed
- Turbo
- Beaters and kneading hooks
- Cord storage

Meat Mincers

Equipped with many smart ideas ranging from detachable accessories to stainless steel grinding system.

Meat Mincers / Scale

BKK 2184 Meat Mincer

- Power: 600 W
- Convenient use with food pusher
- Easy detachable accessories
- Sausage pole
- Stainless steel meat grinding system
- On/off/reverse switch

BKK 2185 Meat Mincer

- Power: 550 W
- Convenient use with food pusher
- Easy detachable accessories
- Sausage pole
- 2 different stainless steel meat grinding system
- Storage for attachments
- On/off/switch

BKK 2180 Kitchen Scale

- On/off button and auto-off feature
- With tare function, net weight of food can be measured
- Wide and big bowl to facilitate measurement of liquids
- Device and bowl can be stored one inside the other, so no extra space is needed
- LCD display
- Accuracy of 2 gr up to 3 kg
- Lithium battery

Grills & Toasters

A weekend brunch with family
enabled by the smart solutions of Beko grills and toasters.

Grills & Toasters

BKK 2191 Inox Toaster

- Power: 800 W
- 2 slice
- High-lift function
- Re-heat, defrost and stop settings
- Variable browning control
- Crumb tray

BKK 2118 Contact Grill

- Power: 2400 W
- Glass surface
- 3 heat adjustment
- Removable double coated PTFE plates
- On/off button
- Lock down lid
- Hinged floating cover
- Cleaning scraper

BKK 2115 Bistro Toast Grill

- Power: 2000 W
- 3 heat adjustment
- Removable double sided and PTFE coated surfaces
- On/off button
- Lock down lid
- Hinged floating cover
- Cleaning scraper

Grills & Toasters

BKK 2116 Gusto Sandwich Maker

- Power: 700 W
- Double coated PTFE plates
- 3 different kind of plates
- Lock down lid
- Thermostat indicator light
- Upright storage option

BKK 2177 Grill

- Power: 1500 W
- Glass lid
- Replaceable plate
- Removable drip tray for fat free cooking and easier cleaning
- Detachable power cord with adjustable temperature

Breadmakers

A detailed still life composition featuring a variety of baked breads. In the background, several long baguettes stand upright. In the center, a large, round, rustic loaf with a cracked crust is prominent. To its right are two tall, rectangular loaves. The foreground is filled with more breads, including a sliced loaf showing a soft interior, and several smaller round loaves. A small wooden bowl filled with grain or seeds sits in the lower center, surrounded by wheat stalks and individual grains of wheat.

There's nothing quite like the warm aroma of freshly baked homemade bread from the oven. Just add ingredients, press a few buttons, and it takes care of the rest.

BKK 2510 Pro Double Loaf Breadmaker

- Power: 800 W
- Different choice of bread making with two loafs (450 gr x 2)
- If the power supply has been broken off during the course of bread making, the process will be continued automatically within 15 minutes
- Double viewing window
- 11 programs with home made specialty
- Programmable digital time

BKK 2505 Small Breadmaker

- Power: 600 W
- 700 gr capacity
- If the power supply has been broken off during the course of bread making, the process will be continued automatically within 15 minutes
- Viewing window
- 12 different programs
- Programmable digital timer

Microwave Ovens

Automatic programming,
practical usage, convenient
cleaning... With all these
features, Beko microwaves
are designed to help you
cook delicious dishes
quickly.

Microwave Ovens

MWF 2310 ES 23 Lt Compact Microwave Oven

Home Care

- Vacuum Cleaners
- Irons
- Steam Boxes
- Heaters

Floor Assistant

Beko vacuum cleaners are designed and engineered to ensure the highest possible level of dust and particle removal on virtually any surface.

Dust-bag full indicator

Dustbag fill level indicator signals when the dust bag needs to be replaced. This smart solution saves the hassle of checking whether the bag is full or not.

Auto cord reel

A single touch of a button activates the automatic cord rewind mechanism, making storage easy and convenient.

Water filtration

Water filtration is generally known as one of the most hygienic filtration methods, filtering the dust through the water.

High suction power

Available in machines with more than 300W suction power. Lifts dirt and dust out of surfaces easily and effectively thanks to its high suction power.

Bagless cyclone

Bagless models collect dust inside a special compartment instead of a bag. The transparent compartment allows users to easily check and see when to dump the dirt.

Wet & dry cleaning

So after you mop and scrub a floor or hand clean a carpet, you have to wait until that surface is totally dry. The wet cleaning mode allows the surfaces to dry much more quickly. It sucks up excess water, which is especially important for hardwood floors. The Wet Cleaning mode can also be used to suck up small spills or sucking up the dampness on the carpets after they have been hand cleaned.

Carpet cleaning

Models with carpet cleaning feature are equipped with water tanks to allow spraying of water and shampoo throughout the cleaning process.

Silent operation

Models carrying the silent operation logo operate no louder than 78db.

Blower function

Best for sweeping leaves on the floor or even cleaning the computer key boards.

Synthetic dust bag

These bags provide great saving opportunities as they are wear&tear proof although they are for single use. They don't get damp with moisture or resistant to tearing when sharp objects are sucked in. Additionally they provide up 20% more storing space as they cover their container volume fully.

Motor protection thermostats

Your vacuum cleaner's motor might overheat in the case of overloaded dustbags or a foul hose. In such cases, the thermostat will prevent the motor from running for 30mins.

Power variator on body

You can control the suction power with a dial on the machine body.

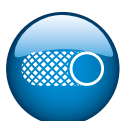

Hepa filter

Hepa is an acronym for "high efficiency particulate air". Basically Hepa is a type of filter that can trap a large amount of very small particles that other vacuum cleaners would simply recirculate back into the air of your home. It is yet another smart solution for the health of your family.

Re-usable textile bag

With models featuring dust bags, users have the option to replace the paper bags with cloth bags that can be washed and reused.

Steel-wired hose

This is a standard option in the models with suction power control on the handle. In case you demand a stronger hose on our other premium models we can provide you with steel wired hoses. These hoses are bend and cut resistant as they are braided with steel wires inside.

Vacuum Cleaners

Beko vacuum cleaners are the first line of defense to keep your home free of allergens, dust and mites so that you can have the peace of mind for your family health. On top they keep your carpets and floors looking their best.

Vacuum Cleaners / Dust Bagged

BKS 2124

Metallic Grey High Performance Bagged Vacuum Cleaner

- 2400 W max. high motor power
- 410 W high suction power
- Electronic power regulation on body
- 4 lt high dust capacity
- 6 levels of filtration system
- Metal telescopic extension tube
- Protection bumper around body
- Low noise level with special acoustics design
- 360° rotational hose adaptor with usage ergonomics
- Adjustable German design floor brush (RD-264)
- Motor protection thermostat
- Accessory carrying on extension tube
- Reusable textile bag and spare dust bag
- Spray colour painting

BKS 2123

High Performance Bagged Vacuum Cleaner

- 2300 W max. high motor power
- 400 W high suction power
- Electronic power regulation on body
- 4 lt high dust capacity
- 6 levels of filtration system
- Metal telescopic extension tube
- Protection bumper around body
- Low noise level with special acoustics design
- 360° rotational hose adaptor with usage ergonomics
- Adjustable German design floor brush (RD-264)

BKS 1320 Metalic Bronze Bagged Vacuum Cleaner

- 1900 W max. motor power
- Suction power control on body
- 2,5 lt dust capacity
- Metallic spray color
- Metal telescopic extension tube
- Adjustable floor nozzle
- Dust bag full indicator
- Reusable textile bag and paper bag
- 5 m cord length
- Crevice tool and dusting brush

BKS 2420 Blue Bagged Kangaroo Vacuum Cleaner

- Spare dust bags are stored on the product (special kangaroo feature)
- 2000 W max. motor power
- 300 W suction power
- On off control system
- 3 lt dust capacity
- 6 level filtration system
- Metal telescopic extension tube
- Protection bumper on the body
- Low noise level with special acoustics design
- Adjustable German design hard/carpet floor brush (RD-264)
- Electronic dust bag full indicator
- Reusable textile bag and 3 spare dust bags on the product
- Injection color

Vacuum Cleaners / Dust Bagged

BKS 1410 Purple Bagged Vacuum Cleaner

- Bagged type
- 1 pc re-usable textile bag
- 1 pc spare paper bag inside giftbox
- Max. motor power: 2000 W
- 3,0 lt dust capacity
- Power variator on body
- Metal telescopic extension tube
- Adjustable plastic base China brush
- Injection color
- Cord length: 5 m

BKS 1310 Bagged Vacuum Cleaner

- 1800 W max. motor power
- Suction power control on body
- 2,5 lt dust capacity
- Injection color
- 2 pcs. plastic pipes
- Adjustable floor nozzle
- Dust bag full indicator
- Reusable textile bag and paper bag
- 5 m cord length
- Crevice tool

Vacuum Cleaners / Dust Bagged

BKS 1510 Bagged Vacuum Cleaner

- Bagged type
- Compact (easy to store and carry)
- 1 pc re-usable textile bag
- 1 pc spare paper bag inside giftbox
- Max. motor power: 1600 W
- 2,0 lt dust capacity
- On-off control (no suction variable)
- 2 pcs plastic extension tubes
- Adjustable plastic base China brush
- Injection color
- Cord length: 5 m
- Dust bag full indicator

BKS 1220 Red Compact Dust - Bagged Vacuum Cleaner

- Max. motor power: 1500 W
- 2,5 lt dust capacity
- Electronical suction control
- 4 level filtration
- 2 pcs metal extension tubes
- Adjustable metal base China brush
- Textile and paper dust bag
- Injection color

Vacuum Cleaners / Dust Bagged

BKS 1215 Blue Compact Dust - Bagged Vacuum Cleaner

- Max. motor power: 1500 W
- 2,5 lt dust capacity

Whether you love ironing or not, whether you do a lot of ironing or not, we have a solution for you in Beko Smart Ironing solutions.

Auto-off

Auto-off feature turns the iron off after 30 seconds when left unattended on fabric, 8 minutes when left in upright position.

Titanium coating

The titanium coating distributes the heat uniformly across the sole plate and helps smooth gliding providing effective and non-stick ironing.

Self clean

Self-clean feature enables you to expel boiling water through the steam vents to clear mineral build up.

Greener

We design our products to be the most energy efficient and the most recyclable. Look for the icon "🌱" in the catalogue to see the most environmentally friendly products we bring to you.

Irons

A smart solution to get professional ironing results with your own hands. Beko Steam Box Irons produce ample amount of steam with little amount of water. Just a single press and a single pass enough to get that neat and crisp ironing results you are always after.

BKK 2142 Steam Iron

- Power: 2400 W
- Special design with flowers
- Powerful variable steam: 30 gr/min
- Stainless steel soleplate
- Multiple heat and steam settings for different kinds of fabrics
- Auto-off feature: Turns the iron off automatically when left unattended
- Self-clean function
- Anti drip system
- Vertical steam (vertical ironing is possible)
- 320 ml water tank
- Filling beaker
- 360° rotating cord

BKK 2141 Digital Auto Steam Iron

- Power: 2400 W
- Powerful variable steam: 35 gr/min
- High technology ceramic-plated soleplate makes special slippery ironing with homogenize heat

It is appreciated...

From Beko “Sponsor of basketball” to the entire world with pride...

Beko is a global brand who believes in the importance of sports in people's lives. For this reason Beko supports all sporting events, mainly basketball. Beko's “dynamic, entertaining and young” character is inline with the nature of basketball. Beko also believes that sports play a major role in the growth of young generations. Basketball is a sports that leads to the development of communication and social skills such as teamwork, quick thinking and self esteem.

Basketball represents the same values and targets that Beko possesses, competing in a fair setting with ever-growing ambition to be the leader. Beko commenced its basketball adventure in 2006 by becoming the title sponsor of the Turkish Basketball League. The league has been running under the name of “Beko Basketball League” for 7 years. It has also become the name sponsor of Basketball Bundesliga, one of the most significant basketball leagues, for six years since 2009/2010 season. As a competitive league, Beko Basketball Bundesliga has always had a good reputation in the international arena. In 2011 Beko carried its international league sponsorships one step further and became the sponsor of Russian Basketball League as well. The league has started to be named as “Beko Professional Basketball League” in 2011, Beko has become the name sponsor of Lithuania Basketball League, LKL. Lithuania is known with their love in basketball and LKL is one of the most successful Leagues of Europe as well.

Beko, aside from the league sponsorships, gave great support to international championships as well starting with main sponsorships for “2009 FIBA Asian Basketball Championships” organized in China and “Eurobasket 2009” organized in Poland. Beko challenged itself and became the “Presenting Sponsor” of 2010 World Basketball Championship, which shall be held every four years, bringing the strongest teams together. Beko was also the presenting sponsor of the European Basketball Championships 2011 held in Lithuania.

Beko keeps on standing by the basketball fans all around the world by supporting two forthcoming organizations to be held in 2013 and 2014. Beko has become the Presenting Sponsor of 2013 FIBA EuroBasket, which will take place in Slovenia and of 2014 FIBA Basketball World Cup, which will take place in Spain.

The sponsor of
major leagues over
the world for
7 years.
